Eureka 400-RX is an excellent, economical and versatile leather fatliquor based on bisulfited high quality marine oil.

**TYPICAL ANALYSIS:**

<table>
<thead>
<tr>
<th>Property</th>
<th>Specification</th>
</tr>
</thead>
<tbody>
<tr>
<td>Charge</td>
<td>Anionic</td>
</tr>
<tr>
<td>Moisture Content, %</td>
<td>39.0 – 41.0</td>
</tr>
<tr>
<td>pH (10% Solution)</td>
<td>6.5 – 7.5</td>
</tr>
</tbody>
</table>

**EMULSION CHARACTERISTICS:**

- 10% Solution in distilled water: Translucent, stable
- 10% in pH3,4,5 Buffer: Stable

**PRODUCT CARE:**

- **Solubility:** Soluble in water
- **Handling:** Handle as any non-hazardous fatliquor. Bring to room temperature. All fatliquors are emulsions and may separate over time. This is normal. Mix well before use, and they will perform properly.
- **Storage:** Optimum performance and shelf life are maintained when stored near room temperature. Keep from freezing or overheating.
- **Shelf Life:** 12 months when properly stored.

**APPLICATION:**

Eureka 400-RX possesses excellent leather softening properties. Eureka 400-RX penetrates the leather easily and
uniformly. Eureka 400-RX has many applications on all types of leather, but is mostly used for glove, garment and upholstery leathers, especially where high tensile strength of the leather is required. The amount applied depends upon the type of leather desired. Retan and fatliquoring formulations are available from Atlas Refinery, Inc. technical service staff upon request.
